* WARRANTY INFO *

What contractor support can you expect?

1. Job lot quantities can be shipped directly to you. We personally deliver your shipment to ensure on-time deliveries.
2. Each shipment (1 sheet to 100) is crated for protection in transit and at the job site.

The wins? A tighter, stronger, and more attractive building!

We Are UL-Certified

UL Listing Number: R40644

UL 580 Standard for tests for uplift resistance of roof assemblies

UL 790 Standard test methods for fire tests of roof coverings

UL 2218 Impact resistance of prepared roof covering materials

How we make your panels durable

1. First, we coat the non-painted panel with Galvalume. (For painted panels, we use an AZ-50 substrate.)
2. Next, the panels are bonderized, and we apply an OPTIMA Primer for flexibility.
3. Finally, over the excellent OPTIMA base, we apply CERAM-A-STAR. CERAM-A-STAR is a ceramic, pigmented silicone polyester, which supplies strength, hardness, and durability against harsh weather conditions.

Layers of Excellence from Bottom to Top

- Pigmented Backer
- Urethane Primer
- Bonderizing Treatment
- Zinc/Aluminum Coating
- Steel Substrate
- AZ-50 Substrate for Painted Panels/
AZ-55 for Galvalume Non-Painted
Panels
- Ceramic/Inorganic Pigmented
Silicone Polyester Baked Enamel

WHY CERAM-A-STAR?

- It's extremely resistant to mildew.
- It protects against sun, wind, rain, heat, and cold.
- It doesn't blister, peel, or flake.

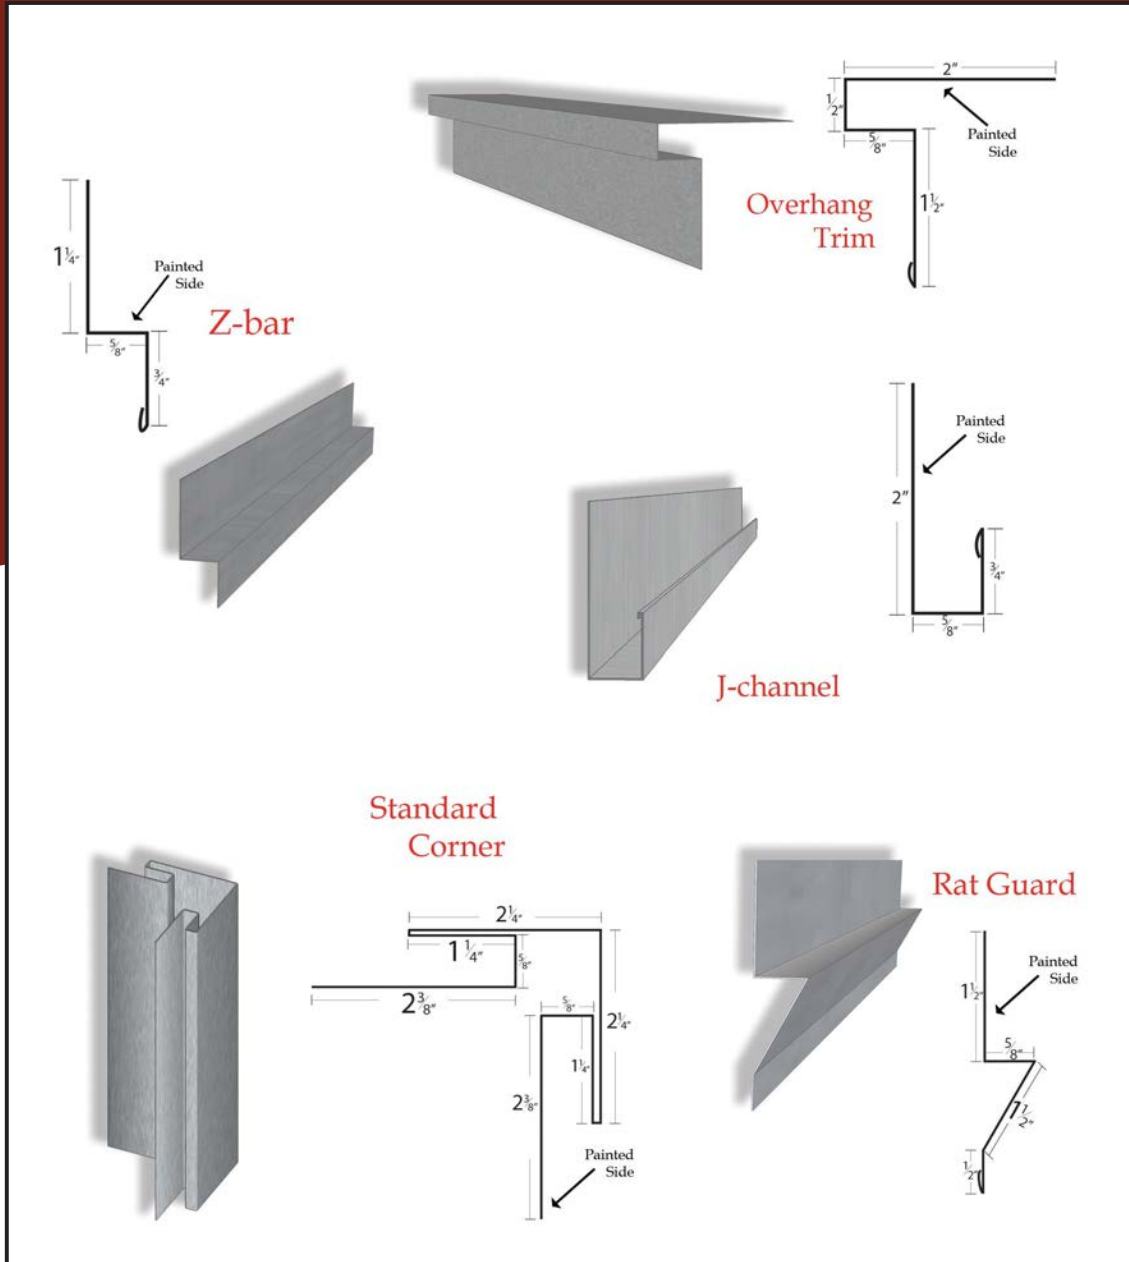

ABOUT: AkzoNobel

AkzoNobel is a world-leading paint and coating manufacturer based in the Netherlands. Their coatings and paint are highly regarded by manufacturers and contractors alike.
